

**Minutes of SIAPWS EC Meeting 2019-5  
(10.10.2019)**

**1. Update since last meeting**

- Monika had a Meeting with Veolia Mobile Water Service (Patrick Wuis (NL) and Per-Åke Lindström (SE)) – introduced them to IAPWS and Matarvattensektionen and encouraged them to take part in Matarvattenkonferensen and next year's IAPWS meeting in Italy. Possible new member country – Netherlands (lot of district heating). Karsten will follow up with André Zeijseink.

**2. EC Action list**

SIAPWS website

- Karsten is in contact with COWIs IT knowledge centre in Lithuania. They have some experience in Word Press, and maybe they can help with the webpage.

National groups - status

*SIAPWS Danmark*

- Workshop on 27. August in Copenhagen. 46 participants. Positive feedback.
- Next years annual meeting will be the 7. January 2020. The venue will be at the Danish District Heating Association in Kolding.

*SIAPWS Suomi*

- Study visit in September to Endress-Hauser in Tampere with demonstration at vendor and a visit to municipal waste water treatment plant.
- The annual meeting will be in February, at the new Nortali multifuel plant.

*Matarvattensektionen*

- Workshop on Legionella in general on 19. September – a success. Legionella in Kista, people died from legionella in cooling tower water. No immediate danger in closed loop cooling systems.
- Ongoing planning of the Matarvattenkonferensen on 12.-13. November 2019 in Stockholm. Program is almost finished, and the information can be found on the Matarvattensektionen website.

Short newsletter/info material

- A short newsletter about IAPWS Annual Meeting in Banff. Karsten will make a draft and circulate it.

**3. IAPWS meeting in Banff**

- TGD on FGC was accepted, and the work begins.
- TGD on corrosion products on flexible plants.
- The Australians have been working on demin water integrity for several years. Now Hayden Hendersen (AU) is the new group leader. The new group has three months to decide whether to move forward with this work or to shut it down. Karsten will circulate the road map from the working group, and the SIAPWS national groups will ask within the national groups on participation in the work.
- Smart alarms – will be a new section in the instrumentation TGD. John Powalisz from Sentry is the group leader in the working group. Kirk Buecher from Mettler Toledo and Jere Espo will also participate.

- New international collaboration for the corrosion products in flexible plants has been granted.
- Electrical boiler – collaboration between New Zealand and SIAPWS.

#### **4. Matarvattenkonferensen 2019**

- Deadline for presentation!
- Karsten and Anders will tell about the Banff meeting.

#### **5. SIAPWS annual meeting 2020**

- Next years meeting will also be a 1½ day event.
- The meeting will be in Copenhagen, Denmark.
- The meeting must be held in March 2020.
- Collaboration with BIAPWS and inviting Paul McCann to the annual meeting.
- Possible venue could be IDA in Copenhagen. Monika will ask IDA for available rooms and budget for a meeting on 18. -19. March 2020 starting with breakfast on the 18/3 and ending with lunch at 19. March.
- At the next EC meeting we will discuss proposals for content and budget/economy.

#### **6. Miscellaneous**

- ...

#### **7. Next EC meeting**

- Friday 29/11-2019 (13:30-14:30) (UTC+01:00) Brussels, Copenhagen, Madrid, Paris).
